What is this product?

TYPE OF PRODUCT

The product is a fund of BIL Invest, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However, the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

OBJECTIVES

Investment policy

The Fund mainly invests, either directly or through other funds and derivatives, in Japanese equities.

Specifically, the Fund invests in equity and equity-related securities of companies that are located, or do most of their business, in Japan. The Fund may also invest in other securities such as bonds and money market instruments.

The Fund may also invest in, or be exposed to, the following, up to the percentage of total net assets indicated:

- UCITS, including ETFs, and other UCIs: 100%
- deposits with credit institutions: 20%

Non-JPY investments may be hedged to JPY.

Derivatives and techniques The Fund may use derivatives for reducing risks (hedging) and costs, and for generating additional income or growth.

The Fund intends to use core derivatives only.

Investment strategy

In actively managing the Fund, the investment manager combines market and fundamental analysis to select investments that appear to offer superior growth prospects.

Sustainability approach The investment manager considers environmental, social and governance (ESG) criteria when assessing investment risks and opportunities. It may however invest significantly in securities with low ESG ratings.

The Fund adheres to the management company's sustainable investing policy.

The Fund is classified as article 6 as per the SFDR regulation.

Benchmark The fund is not managed in reference to a benchmark.

Fund base currency JPY.

Investment manager(s) Banque Internationale à Luxembourg S.A.

INTENDED RETAIL INVESTOR

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 6 years.

OTHER INFORMATION

The depositary is CACEIS Bank, Luxembourg Branch

The registrar and transfer agent is CACEIS Bank, Luxembourg Branch

The return of the product is determined by using the net asset value calculated by the Central administration. This return depends mainly on the market value fluctuations of the underlying investments.

The Fund's assets are segregated from assets of other funds of the SICAV. The assets of the Fund cannot be used to pay debts of other funds.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

Further information about the SICAV (including the prospectus, other classes, latest annual and semi-annual reports, latest NAVs) are available in English free of charge on www.bilmanageinvest.lu or by making a written request to the registered office of the product manufacturer.

Investors may switch between share classes or funds of the SICAV. Please see the prospectus for details.

This key information document describes the named Fund; however, the prospectus and the periodic reports are prepared for all the funds of the SICAV.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 6 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level. Poor market conditions could impact the Fund's capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Please refer to the prospectus for more information on the specific and material risks relevant to the Fund not included in the summary risk indicators.

This Fund does not include any protection from future market performance, so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 11 years. Markets could develop very differently in the future.

What happens if BIL Manage Invest S.A. is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with CACEIS Bank, Luxembourg Branch and are segregated from the assets of other funds of the SICAV. The assets of the Fund cannot be used to pay the debts of other funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- JPY 1 000 000 is invested

Investment of JPY 1 000 000	If you exit after 1 year	If you exit after 6 years
Total costs	JPY 54 200	JPY 199 767
Annual cost impact (*)	5.4%	2.5%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.8% before costs and 4.2% after costs.
