

Template pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Global Emerging Debt**

Legal entity identifier: **549300A8YN6U8D2CFX77**

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Does this financial product have a sustainable investment objective?

Yes		No	
<input type="checkbox"/>	It will make a minimum of sustainable investments with an environmental objective : ___%	<input checked="" type="checkbox"/>	It promotes Environmental/Social (E/S) characteristics and while it does not have as its objective a sustainable investment, it will have a minimum proportion of 5% of sustainable investments
<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/>	It will make a minimum of sustainable investments with a social objective : ___%	<input checked="" type="checkbox"/>	with a social objective
		<input type="checkbox"/>	It promotes E/S characteristics, but will not make any sustainable investments

Note: Sustainable investments are calculated on a pass/fail basis including labelled bonds (where relevant to the asset class), and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contribute to environmental or social objectives.

What environmental and/or social characteristics are promoted by this financial product?

The environmental and social characteristics of this financial product are:

- Best-in-class / best effort:

The fund seeks to invest in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The investment universe is composed of sovereign and corporate bonds from emerging countries.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Labelled bonds:

The fund seeks to partially invest in environmental and/or social labelled bonds.

- Norms- and values-based exclusions:

The fund excludes issuers that are in severe breach of international norms or have significant activities with adverse impacts on society or the environment.

- Active ownership:

The fund may engage with company and/or government representatives on material ESG issues and may discontinue investment if progress proves unsatisfactory.

- ▶ See also: “What investment strategy does this financial product follow?” and “Does this financial product consider principal adverse impacts on sustainability factors?”.

- **What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?**

Indicators the fund uses include:

- exposure to revenues from economic activities that contribute to environmental and/ or social objectives
- exposure to green and/or social labelled bond

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- reduction of the investment universe based on ESG factors
 - Principle Adverse Impact (PAI) indicators such as exposure to issuers that are in severe breach of international norms or have significant activities with adverse E/S impacts on society or the environment
- **What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?**

The fund partially invests in securities financing economic activities that substantially contribute to environmental or social objectives such as:

Environmental

- climate change mitigation
- climate change adaptation
- sustainable use and protection of water and marine resources
- transition to a circular economy
- pollution prevention and control, or
- protection and restoration of biodiversity and ecosystems

Social

- inclusive and sustainable communities
- adequate living standards and well-being for end users, or
- decent work

This is achieved by investing in securities financing economic activities that substantially contribute to environmental or social objectives such as those listed above.

Eligible securities include:

- where relevant, green and/or social labelled bonds issued by companies or countries whose use of proceeds are financing such economic activities
- securities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- **How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?**

The fund considers an investment sustainable if it does no significant harm to any E/S objective, which the investment team determines by using a combination of quantitative and qualitative assessments at issuer level. The assessments draw on both general and industry-relevant indicators, and include exposure to material sustainability risks. Periodic reviews and risk controls are in place to monitor implementation.

- *How have the indicators for adverse impacts on sustainability factors been taken into account?*

The fund considers and, where possible, mitigates adverse impacts of its investments on society and the environment through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

- *How are the sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excludes issuers that are subject to severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do not significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Does this financial product consider principal adverse impacts on sustainability factors?

Yes, the fund considers and, where possible, mitigates adverse impacts of its investments on society and the environment that are deemed material to the investment strategy through a combination of portfolio management decisions, active ownership activities, and exclusion of issuers associated with controversial conduct or activities.

Please refer to Pictet Asset Management's Responsible Investment policy for the list of PAIs.

- ▶ See also detailed information on exclusions in Pictet Asset Management's Responsible Investment policy.
- No

What investment strategy does this financial product follow?

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

Objective:

To increase the value of your investment, through income and investment growth.

Reference index:

JP Morgan EMBI Global Diversified (USD), an index that does not take into account environmental, social and governance (ESG) factors. Used for portfolio composition, risk monitoring, performance objective and performance measurement.

Portfolio assets:

The fund mainly invests in a broad range of corporate and government bonds that are issued in emerging markets (including Mainland China). These may include Sharia-compliant bonds. The fund can invest across any sector, currency and credit quality. The fund may also invest in money market instruments.

Derivatives and structured products:

The fund may use derivatives to reduce various risks (hedging) and for efficient portfolio management, and may use derivatives and structured products to gain exposure to portfolio assets.

Investment process:

In actively managing the fund, the investment manager uses a combination of market and issuer analysis to build a diversified portfolio of securities it believes offer the best risk-adjusted returns relative to the benchmark. The fund's management approach uses strict risk controls. The investment manager considers ESG factors a core element of its strategy by adopting a best in class approach which seeks to invest in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, subject to good governance practices. Activities that adversely affect society or the environment are also avoided. There may be engagement with companies to positively influence ESG practices. For further information, please refer to our exclusion framework in the Responsible Investment policy, SFDR product category Article 8. The performance of the fund is likely to be significantly different from that of the benchmark, because the Investment Manager has significant discretion to deviate from its securities and weightings.

Fund currency:

USD

- ▶ See also: "What environmental and/or social characteristics are promoted by this financial product?" and "Investment Policy" in the fund's prospectus.

● What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?

The fund's binding elements include:

- exclusion of issuers that:
 - are involved with nuclear weapons from countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT) and other controversial weapons
 - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and production, conventional oil and gas production, nuclear power generation, conventional weapons and small arms, military contracting weapons and weapon-related products and services, tobacco production, adult entertainment production, gambling

operations, genetically modified organisms development/growth, pesticides product/retail. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds applicable to the above activities.

- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

To ensure ongoing compliance, the fund monitors the ESG profile of all securities and issuers that form part of the minimum percentage of E/S investments stated in “What is the asset allocation planned for this financial product?”. The fund draws on information from various sources, such as proprietary fundamental analysis, ESG research providers, third-party analyses (including those from brokers), credit rating services and financial and general media. Based on this information, the investment manager may decide to add or discontinue certain securities, or increase or decrease its holdings in certain securities.

- ▶ See also: “What investment strategy does this financial product follow?” and “Does this financial product consider principal adverse impacts on sustainability factors?”.

● **What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?**

The fund reduces its investment universe by removing at least 20% of issuers with the highest sustainability risks.

● **What is the policy to assess good governance practices of the investee companies?**

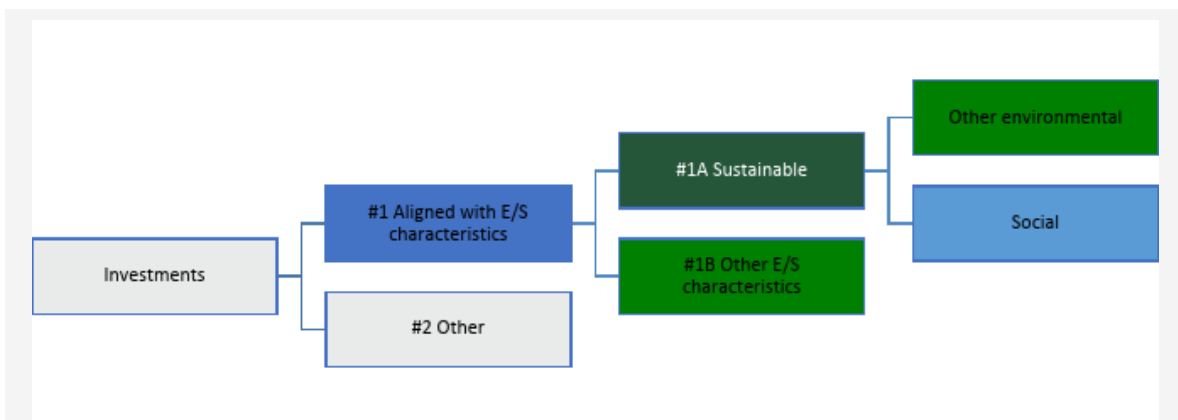

The fund mainly invests in government bonds.

However, in case of investments in corporate bonds, the fund assesses company decision-making processes and controls, as well as how management balances the interests of shareholders, employees, suppliers, customers, the community and other stakeholders. Assessed areas may include:

- the composition of the executive team and board of directors, including the experience, diversity and distribution of roles, along with succession planning and board evaluation
- executive remuneration, including short term and long term incentives and their alignment with investor interests
- risk control and reporting, including auditor independence and tenure
- shareholder rights, including one-share-one-vote and related-party transactions

What is the asset allocation planned for this financial product?

The fund is at least 75% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and up to 25% invested in Other (#2 Other). At least 5% are allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder will be invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.

Asset allocation describes the share of investments in specific assets.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers sustainable investments with environmental or social objectives.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

• Sustainable investments are calculated on a pass/fail basis including labelled bonds (where relevant to the asset class), and securities from issuers with minimum 20% exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contribute to environmental or social objectives.

• In the absence of an EU social taxonomy, Pictet has developed a proprietary social taxonomy framework. The framework is based on the Report on Social Taxonomy published by the EU Platform on Sustainable Finance in 2022. Eligible activities are defined as socially beneficial goods and services that substantially contribute to one of the following three social objectives: (1) inclusive and sustainable communities, (2) adequate living standards and well-being for end users and (3) decent work.

• Whilst the fund includes achieving a positive environmental or social objective, its investment policy does not target specifically investments with climate change mitigation and climate change adaptation objectives as defined by the technical screening criteria of the Taxonomy Regulation.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The fund does not use derivatives to attain the promoted environmental or social characteristics. However, exclusions are applied to all types of securities (equities, bonds, convertible bonds) issued by excluded entities, including participation notes and derivatives issued by third parties on such securities.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable

● **Does the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy¹?**

- Yes:
- In fossil gas In nuclear energy
- No

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- turnover reflecting the share of revenue from green activities of investee companies
- capital expenditure (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The two graphs below show in green the minimum percentage of investments that are aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

● **What is the minimum share of investments in transitional and enabling activities?**

0%

The fund does not have a minimum share of investments in transitional and enabling activities, as it does not commit to a minimum proportion of environmentally sustainable investments aligned with the EU Taxonomy.

What is the minimum share of sustainable investments with an environmental objective that are not aligned with the EU Taxonomy?

2,5% (see note in the asset allocation chart above for calculation method)

What is the minimum share of socially sustainable investments?

2,5% (see note in the asset allocation chart above for calculation method)

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

The fund’s “other” investments include cash positions, and derivatives. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

► See also: “What investment strategy does this financial product follow?”.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● **How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?**

Not applicable

● **How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?**

Not applicable

● **How does the designated index differ from a relevant broad market index?**

Not applicable

- **Where can the methodology used for the calculation of the designated index be found?**
Not applicable
