Management company

Link Fund Solutions (Luxembourg) S.A. is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier.

Date of production

01/01/2024

What is this product?

Type

This product is a share of an investment company qualifying as an undertaking for collective investment in transferable securities (UCITS).

Term

This sub-fund has no maturity date. However, the manufacturer may decide to close the sub-fund under certain circumstances.

Objectives

The objective of the sub-fund is to seek medium-term and long-term capital appreciation for the investor through a flexible allocation of assets in accordance with the analyses and opinions of the Investment Manager.

The sub-fund will invest its assets in a portfolio composed of equity assets, fixed income, money market instruments, with no geographical, sectoral or monetary restriction.

The weighting of a particular asset class in the sub-fund will depend on the conditions on the financial markets at the time of investment and/or the outlook of these markets.

The attention of the shareholders is drawn to the fact that this sub-fund can be exposed up to 100% of its net assets to one country and/or one geographical area and/or one sector of economic activity and/or one currency only. The purpose is to give to the Investment Manager a high level of flexibility in the asset allocation in order to maximize the potential in favorable conditions and limit the risks in hard periods.

The sub-fund may invest up to 50% of its net assets into investment funds and/or other investment funds, including investment funds traded stock exchanges.

The sub-fund may also invest up to 10% of its net assets in exchange-traded commodities involving precious metals in without physical delivery of the underlying metal.

Investments other than in EUR will not be systematically currency-hedged.

For hedging or portfolio optimization purposes the sub-fund may use financial derivative instruments.

Benchmark: The portfolio is actively managed on a discretionary basis without reference to a benchmark.

Intended retail investor

This product is suitable for retail investors which seek a patrimonial investment approach.

Other information

Depositary: Banque de Luxembourg

Dividend income: This class is a capitalisation class meaning that income is reinvested.

Conversion right: The investor has the right to convert his investment in shares in one sub-fund for shares in the same sub-fund or in another sub-fund. The investor can obtain information about how to convert in the prospectus of the fund.

Segregation: The assets and liabilities of a sub-fund are segregated pursuant to the law so that the commitments and liabilities of one sub-fund do not affect the other sub-funds.

Additional information: Additional information about the fund, copies of its prospectus, the latest annual and semi-annual report and the latest prices of shares may be obtained free of charge from the management company or on www.waterloo-am.com/sicav. The prospectus and the periodic reports are prepared for the entire fund and are available in English. The management company may inform you about other languages in which these documents are available.

This sub-fund was launched in 2016 and this share class in 2016.

The currency of the share class is expressed in EUR.

What are the risks and what could I get in return?

Risk indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-

low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a currency that differs from your reference currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The sub-fund is also exposed to the following materially relevant risks that are not included in the summary risk indicator:
Currency risk - Credit risk - Counterparty risk

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

Recommended holding period: 5 years

Example investment: 10,000 EUR

| | | If you exit after 1 year | If you exit after 5 years (recommended holding period) |
|---------------------|--|--------------------------|--|
| Scenarios | | | |
| Minimum | There is no minimum guaranteed return. You could lose some or all of your investment. | | |
| Stress | What you might get back after costs | 4,300 EUR | 3,490 EUR |
| | Average return each year | -57.0 % | -19.0 % |
| Unfavourable | What you might get back after costs | 8,930 EUR | 9,410 EUR |
| | Average return each year | -10.7 % | -1.2 % |
| Moderate | What you might get back after costs | 10,350 EUR | 12,030 EUR |
| | Average return each year | 3.5 % | 3.8 % |
| Favourable | What you might get back after costs | 12,500 EUR | 13,280 EUR |
| | Average return each year | 25.0 % | 5.8 % |

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and of a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Unfavourable scenario: This type of scenario occurred for an investment between March 2015 and March 2020, by referring to a bench-

mark.

Moderate scenario: This type of scenario occurred for an investment between November 2013 and November 2018, by referring to a benchmark.

Favourable scenario: This type of scenario occurred for an investment between November 2016 and November 2021.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if WATERLOO SICAV is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation or guarantee scheme. To protect you, the assets are held with a separate company, the depositary Banque de Luxembourg. Should we default, the investments are liquidated and the proceeds are distributed to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding period we have assumed the product performs as shown in the moderate scenario
- 10,000 EUR is invested

| | If you exit after 1 year | If you exit after 5 years |
|------------------------|--------------------------|---------------------------|
| Total costs | 230 EUR | 1,396 EUR |
| Annual cost impact (*) | 2.3 % | 2.3 % each year |

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.1% before costs and 3.8% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

| One-off costs upon entry or exit | | If you exit after 1 year |
|--|---|--------------------------|
| Entry costs | We do not charge an entry fee for this product. | 0 EUR |
| Exit costs | We do not charge an exit fee for this product. | 0 EUR |
| Ongoing costs taken each year | | |
| Management fees and other administrative or operating costs | 2.0% of the value of your investment per year. This is an estimate based on actual costs over the last year. | 204 EUR |
| Transaction costs | 0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell. | 11 EUR |
| Incidental costs taken under specific conditions | | |
| Performance fees | 10% annually, based on the performance of the share class, with application of a "High Watermark". The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years. | 15 EUR |

The conversion of part or all of the shares is free of charge.

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

You should be prepared to stay invested for 5 years. However, you can redeem your investment without penalty at any time during this time, or hold the investment longer. Redemptions are possible each Tuesday. In exceptional circumstances, your right to request the redemption of your investment may be limited or suspended.

How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person that advised on or sold this product, you can use different communication channels: by e-mail to info@waterloo-am.com, by letter to 2, rue d'Alsace, L-1122 Luxembourg, by phone calling the number (+352) 28 488 882.

In all cases, the complainant must clearly indicate his/her contact details (name, address, phone number or email address) and provide a brief explanation of the claim. More information is available on our website www.waterloo-am.com/sicav.

Other relevant information
