

Key investor information for investors in Switzerland

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DWS Deutschland

Share class: LC, ISIN: DE0008490962, Security code: 849096, Currency: EUR

The management company is DWS Investment GmbH, a member of the DWS Group.

Objectives and investment policy

The fund is actively managed. The fund is managed in reference to a benchmark. The objective of the investment policy is to achieve sustained capital appreciation that exceeds the benchmark (CDAX) in the medium to long term. In order to achieve this, the fund mainly invests in equities of German issuers; a broadly-based investment in blue chips as well as selected secondary stocks is the primary focus. In this context, the selection of individual investments is the responsibility of the fund management. The majority of the fund's securities or their issuers are expected to be components of the benchmark. The fund management will use its discretion to invest in securities and sectors that are not included in the benchmark in order to take advantages of specific investment opportunities. The strategy provides investors with access to the German equity

market. The fund's positioning can deviate substantially from the benchmark (e.g., due to positions not reflected in the benchmark or significant overweight or underweight positions). Due to the fund strategy characteristics already mentioned, the portfolio's deviation from the benchmark is generally relatively high. Despite the fact that the fund aims to outperform the benchmark, the potential outperformance might be limited depending on the prevailing market environment (e.g. less volatile market environment) and actual positioning versus the benchmark. The currency of the fund is EUR. Returns and gains are not distributed but are reinvested in the fund. You may request the redemption of shares generally on a daily basis.

Risk and reward profile

The calculation of the risk and reward profile is based on historical data that cannot be used as a reliable indicator for the future risk profile. This risk indicator is subject to changes; the classification of the fund may change over time and cannot be guaranteed. Even a fund that is classified in the lowest category (category 1) does not

represent a completely risk-free investment. The fund is classified in category 6 because its share price may fluctuate strongly and the likelihood of both losses and gains may therefore be high. The following risks could be of particular significance for the fund: The fund invests its assets in selected regions or sectors. This increases the risk that the fund may be negatively influenced by the economic and political conditions in the respective regions or sectors. The fund invests in equities. Equities are subject to strong price fluctuations and thus also to the risk of price decreases.

A more detailed description of risks and other general information can be found in the risk section(s) of the prospectus.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00 %
Exit charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) and before the proceeds of your investment are paid out (exit charge).	
Charges taken from the fund over a year	
Ongoing charges	1.40 %
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases you might pay less - you can find this out from your financial adviser or distributor. The ongoing charges figure is based on expenses for the fiscal year ending 30.09.2019. It may vary from year to year. It excludes portfolio transaction costs and performance fees, if any. Additional information on costs can be found in the cost section(s) of the prospectus.

Past performance

Past performance is not a reliable indicator of future performance. All costs and fees that were withdrawn from the LC share class of DWS Deutschland were deducted during the calculation. Entry and exit charges were not taken into account. The LC share class of DWS Deutschland was launched in 1993.
