Asia Opportunity Fund - AH (EUR)

ISIN: LU1378879248, Base Currency: EUR

A fund of Morgan Stanley Investment Funds

The fund is managed by MSIM Fund Management (Ireland) Limited, part of the Morgan Stanley group.

OBJECTIVES AND INVESTMENT POLICY

Objective

- Long term growth of your investment

Main Investments

- The fund invests primarily in company shares.

Investment Policy

- To invest in companies, located in Asia excluding Japan, that the investment adviser believes have sustainable competitive advantages and are undervalued at the time of investment.
- The fund takes into consideration environmental, social, and governance factors in its investment process.
- The Fund will measure its performance against the MSCI All Country Asia ex-Japan Index (the "Benchmark"). The Fund is actively managed and is not designed to track the Benchmark. Therefore, the management of the Fund is not constrained by the composition of the Benchmark.

Other Information

- The fund may also invest a portion of its assets in companies which don't meet the above criteria.
- The Fund may invest in derivatives, financial instruments which take their value indirectly from other assets. They rely on other companies to fulfil contractual obligations and carry more risk. Refer to the prospectus ('Use of Derivatives' section) for more details.
- This is a currency hedged share class. It aims to reduce the impact on your investment of movements in the exchange rate between the fund currency and the share class currency.
- Income will be included in the value of your shares.
- The fund may also invest part of its assets in other investments, which seek to generate a similar return to company shares without direct ownership of the company.
- There are higher costs involved in buying and selling shares in this region. These costs reduce the value of your investment but are not included in the Ongoing Charges figure below.

Buying and selling shares

- Investors may buy and sell shares on any Luxembourg business day.

RISK AND REWARD PROFILE

The risk and reward category shown is based on historic data.

- Historic figures are only a guide and may not be a reliable indicator of what may happen in the future.
- As such this category may change in the future.
- The higher the category, the greater the potential reward, but also the greater the risk of losing the investment. Category 1 does not indicate a risk free investment.
- The fund is in this category because it invests in company shares and the fund's simulated and/or realised return has experienced high rises and falls historically.
- The fund may be impacted by movements in the exchange rates between the fund's currency and the currencies of the fund's investments.

This rating does not take into account other risk factors which should be considered before investing, these include:

- The fund relies on other parties to fulfill certain services, investments or transactions. If these parties become insolvent, it may expose the fund to financial loss.
- There may be an insufficient number of buyers or sellers which may affect the funds ability to buy or sell securities.
- Investment in China A-Shares via Shanghai-Hong Kong and Shenzhen-Hong Kong Stock Connect programs may also entail additional risks, such as risks linked to the ownership of shares.
- There are increased risks of investing in emerging markets as political, legal and operational systems may be less developed than in developed markets.
- In order to achieve the currency hedging, this share class relies on other parties to fulfil certain contractual obligations, as these parties may fail to do so there is a higher risk to your investment.

CHARGES

The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.75%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	1.93%
------------------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	Not applicable
------------------------	----------------

The entry and exit charges shown are maximum figures. In some cases you might pay less, you can find this out from your financial adviser.

The ongoing charges figure is based on expenses for the year ending 31st December, 2019. This figure may vary from year to year. It excludes almost all costs of dealing in the fund's underlying investments.

The fund may charge a fee on purchases, sales or switches if it feels other shareholders will suffer as a result of the cost of the transaction. This fee will be retained by the fund for the benefit of all shareholders.

For more information about charges, please see the Charges and Expenses section of the prospectus.

PAST PERFORMANCE

- Past performance is only a guide and does not guarantee future performance.
- Past performance has been calculated after the deduction of ongoing charges, as described above, but not the deduction of entry or exit charges.
- The fund was launched in 2016.
- Past performance has been calculated in EUR.
- The Fund measures its performance against the MSCI All Country Asia ex-Japan Index.
